- To promote age appropriate reading and writing through scientifically designed **systematic programs**.

Primary (1st - 5th Classes)

TAKING THE LITTLE LEARNERS TO THE WORLD

While we can teach most of the aspects within the four walls of the classrooms, there are many others which students should experience outside. Hence we have Schooling Out Of School – a trip to outside world to give firsthand experience of the real world.

EXPERIMENTING WITH MATH

We pride ourselves in developing the natural curiosity of our Young Einsteins by changing the equation as $A=mc^2$ where Abacus (A) is more (M) than just counting (C) & calculating (C) and also experimenting & experiencing with Math Lab.

SMART LEARNER'S HARMONIOUS DEVELOPMENT

It's an established fact that learning transcends into an effective experience by learning how to learn in kids club.

SOUND MIND - SOUND BODY

All round comprehensive quality education through Yoga, Games & Sports.

Dance, Music / Karate are also parts of our curriculum.

Celebration of various festivals helps students to understand the unique culture of our country.

IGNITING TECHNOLOGICAL SKILLS

In this technology driven world, students are encouraged to use their imaginative skills and also to be professional wellbeing through Tabs & Multimedia.

TRAINED TEACHERS – NOT JUST TO TEACH, TO EDUCATE

Our system of education is Learning Centric rather than Exam Centric. Our teachers are recruited through a 3 level Selection process and trained by mentors concerned in different workshops.

LIVING LESSONS PRACTISING CONCEPTS

Classroom activities conducted in every subject ensure that students don't just learn from what they hear from teachers, but experience by practicing that through activities.

High School (6th - 8th Classes)

THE TECHNO CURRICULUM

An integrated syllabus along with regular CBSE program to facilitate the students to compete in National level prestigious examinations like IIT-JEE, NEET, OLYMPIADS and Other Competitive Examinations.

The main objective of the integrated syllabus (Techno Syllabus) is to strengthen the students in their basic learning and lead them towards the National Level Prestigious Examinations with ease and comfort.

MICRO LEVEL TEACHING

Child centered teaching & learning methodology.

The Micro Level Teaching of the concepts helps the students learning to the optimum level.

IMPORTANCE TO CORE SUBJECTS

Core Subjects like Maths, Physics, Chemistry and Biology are taught by Subject experts on a special priority.

CONSTANT TRAINING FOR TEACHERS

Teachers' Training Program is an integral part of teacher induction at Sri Chaitanya.

Senior teachers and subject resource persons interact and train the teachers to update their teaching skills and subject knowledge periodically.

LABORATORIES-HANDS ON EXPERIENCE

Well-equipped Laboratories for Mathematics, Physics, Chemistry, Biology & Computer Sciences.

SOFT SKILLS

Soft skills give scope to improve communication skills besides polishing the rough edges of the language. Sri Chaitanya provides various programs for improving English Communication Skills.

CALLIGRAPHY – LUCIDA

Handwriting is the presentation of one's ideas in a beautiful way. To promote the same, Sri Chaitanya is equipped with calligraphy trainers to strengthen students handwriting.

ADOPTION PROGRAMME

In order to ensure regular tracking of the students' progress and solve their problems instantaneously, Sri Chaitanya follows a unique Adoption Program.

ORIENTATION ON NASA SPACE SETTLEMENT CONTEST

The main objective of this contest is to encourage the Scientific Spirit and Tempo in the children and making as many scientists as possible from all the corners of the world.

VEDIC MATHEMATICS

Vedic Mathematics helps to master Calculations with speed and accuracy very easily.

Our Mathematics teachers are specially trained to teach Vedic Mathematics.

THE OLYMPIAD EXAMS ORIENTATION

Every student is prepared to attempt at least 4 to 6 Olympiads every year and rank achievers are felicitated with certificates, medals, awards, scholarships etc. which boosts up the students' confidence & I.Q. Levels.

SMART LIVING PROGRAMME – THE UNIQUE PROGRAMME OF SRI CHAITANYA

It's a program which inculcates personal values like Self-Discipline, Moral Values, Health Awareness, Social Responsibility, Life Skills etc. Students explore a theme every month through various activities.

CO-CURRICULAR & EXTRA CURRICULAR ACTIVITIES

The whole school is divided into four houses and competitions like Quiz, Elocution, Debate, Painting etc. are conducted periodically.

IMPORTANCE OF EVENTS & SPECIAL DAYS

Various festivals and special days like World Environment Day, Science Day, Maths Day, are celebrated with the main aim of increasing the levels of social awareness.

YOGA & PHYSICAL ACTIVITIES

Yoga and Meditation are included in our curriculum which help the students to get rid of stress and keep them physically fit.

Physical Training is ensured with appropriate weightage given to games and sports in the curriculum.

WHAT MAKES SRI CHAITANYA A BETTER CHOICE THAN THE OTHERS?

A Conceptual & Professional approach to Core Subjects

Ms. Seema Bopanna
Academic Director
Sri Chaitanya Schools

Conventional education fails to address and enhance core competencies of the student. Though education is imparted, honing of the student's talent is a neglected issue. Sri Chaitanya Techno School adopts a professional approach to education at the school level itself to closely groom and equip students with necessary skills to excel in every area of education. The student not only realizes which scholastic path to choose, but learns to rise above competition and mark a name for himself/herself. At SCTs, it's the emphasis on conceptual knowledge that is the hallmark of success.

A showcase of excellence by Sri Chaitanya

Single Goal... Single Ambition —Single Sri Chaitanya—

We have millions success stories in India. Sri Chaitanya has created an unbreakable history in the education arena. The practical-based, result-oriented Micro Level Teaching system and prestigious sure success academic programs such IPL, IPL Super 60, NEON and ICON create resounding results and repeat the unprecedented victory.
